IT Service Desk and L1 Support candidate with 1+ year of experience as an Associate Software Engineer in Infrastructure Management Services (IMS) at Hexaware Technologies, supporting a telecom project in Network Service Delivery (Access Provisioning). Experienced in queue management, SLA-driven request fulfilment and troubleshooting using Clarify, Versa Tracker and PuTTY. Hands-on ServiceNow ITSM practitioner (Personal Developer Instanceis) with Service Catalog, Business Rules, Client Scripts and Flow Designer. Strong documentation (SOP), knowledge transfer and cross-team collaboration skills. MBA (Human Resources) graduate.

EDUCATION

ISBM — **Gariyaband, Chattisgarh**
Master of business administration — *2024 – 2026*

Aditya degree college — **Rajahmundry, AP**
Bachelor of computer applications — *2020 – 2023*

EXPERIENCE

Hexaware technologies — **Feb 2024 – Mar 2025**
Associate Software Engineer (Network Service Delivery, Access Provisioning) — *Chennai, TN*

- Executed broadband and internet provisioning workflows, resolving customer orders within SLA targets.
- Managed daily queue routing and request fulfilment in Clarify and Versa Tracker, consistently meeting SLA targets.
- Monitored and updated Work-in-Progress (WIP) orders daily, using PuTTY for remote server checks and configuration verification.
- Followed Standard Operating Procedures (SOPs) to keep provisioning data accurate, reducing order fallouts and backlog.
- Collaborated with other NSD teams to resolve dependencies and escalations.
- Maintained a daily production report in Microsoft Excel tracking resolved orders

Technical Upskilling & Implementation (Self-Directed) — **March 2025 – Present**
ServiceNow Developer Trainee — *Remote*

- Completed training in ServiceNow ITSM architecture, platform administration and core workflows.
- Configured a Personal Developer Instance (PDI) to build, test and automate IT catalog request lifecycles.
- Wrote server-side Business Rules and client-side Client Scripts in JavaScript for dynamic data validation and ticket routing.
