Associate Software Engineer with one year of experience in telecom order provisioning and SLA-driven queue management at Hexaware Technologies. Self-directed ServiceNow practitioner with hands-on Personal Developer Instance (PDI) work in ITSM workflows, Business Rules, Client Scripts and Flow Designer. MBA (Human Resources) graduate, targeting IT Service Desk, L1 Support and ServiceNow roles.

EDUCATION

ISBM — **Gariyaband, Chattisgarh**
Master of business administration — *2024 – 2026*

Aditya degree college — **Rajahmundry, AP**
Bachelor of computer applications — *2020 – 2023*

EXPERIENCE

Hexaware technologies — **Feb 2024 – Mar 2025**
Associate software engineer — *Chennai, TN*

- Executed broadband and internet provisioning workflows for the Odido Netherlands telecom project within the Network Service Delivery division.
- Managed daily queue routing and request fulfilment in Clarify and Versa Tracker, consistently meeting SLA targets.
- Monitored and updated Work-in-Progress (WIP) orders daily, using PuTTY for remote server checks and configuration verification
- Followed Standard Operating Procedures (SOPs) to keep provisioning data accurate, reducing order fallouts and backlog.

Technical Upskilling & Implementation (Self-Directed) — **March 2025 – Present**
ServiceNow Developer Trainee — *Remote*

- Completed training in ServiceNow ITSM architecture, platform administration and core workflows.
- Configured a Personal Developer Instance (PDI) to build, test and automate IT catalog request lifecycles.
- Wrote server-side Business Rules and client-side Client Scripts in JavaScript for dynamic data validation and ticket routing.
